

# Micro-Sprint

Date:

Name:

Let's start by **defining** our problem.

What have we **learned** from our users?

Now, let's begin to **make** and test.

1. What is the problem?

---

---

2. What are we doing right now?

---

---

3. Whom is this affecting?

---

---

4. What are the user's goals?

---

---

5. What did you hear & see?

---

---

6. What did the users feel?

---

---

7. Guiding Principles

- a. \_\_\_\_\_  
b. \_\_\_\_\_  
c. \_\_\_\_\_

8. If we want \_\_\_\_\_

\_\_\_\_\_ then we must \_\_\_\_\_

9. Brainstorm Ideas

- a. \_\_\_\_\_  
b. \_\_\_\_\_  
c. \_\_\_\_\_

10. What can we do right now?  
*(Pick one idea)*

---

---

11. What will stop us?

---

---

12. What will we prototype?

---

---
